WEB DEVELOPER

PROJECT EXPERIENCE

ZCS ANIMAL ENRICHMENT APP

OCT 2025 – JAN 2026

- Tasked with rehauling an animal tracking app that the Fresno Chaffee Zoo is using
- The project could be used for other Zoos in the future
- Figma, a software that is used to design apps, was used to prototype the new app

PAWPAL APP

NOV 2025

- Was assigned with a team member to create an app to track animal statistics
- **Gained knowledge** of HTML, CSS, and some JavaScript.
- Took two weeks to complete with a presentation at the end.

SMART GOAL

NOV 2025 – DEC 2025

- Assigned to choose a previous project I have worked on and continue editing it
- Five weeks long with time to work at home
- Chose to continue on my CSS Zen Garden, editing an existing page using purely CSS.
- **Developed skills** in HTML and CSS.

SKILLS

- Knowledgeable in Web Design
- Well versed in Graphic Design
- Layout Composition & Visual Communication
- Team Collaboration & Attention to Detail

PROFESSIONAL SUMMARY

I am a high school junior interested in software development, with experience in HTML and JavaScript programming languages and building through class and personal projects. I put passion into my projects and my work ethic.

EDUCATION

2023 – Present

Clovis West Highschool

2025 – Present

The Center for Advanced Research and Technology
